

WANTED PhD student

TOPIC: SUBCELLULAR PROCESSING OF EXOSOMES IN THE CONTEXT OF ALZHEIMER'S DISEASE

biophysical-chemistry.cz

We are looking for a highly motivated PhD student to join our project investigating the impact of Alzheimer's disease-related environmental stress and genetic background on exosome biogenesis and release.

What we offer:

- A friendly and supportive international team with diverse expertise
- Access to advanced fluorescence techniques, including super-resolution microscopy
- Hands-on experience with tissue cultures, including iPSCs
- Collaboration with Masaryk University in Brno

We are looking for candidates with:

- Education in natural sciences (biology, biochemistry, physical chemistry)

Deadline:

- March 31st 2025
- Send along your CV and a short motivation letter
